## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2, 5, 7 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Arcadia et al. Arcadia et al discloses a solar powered memorial comprising: a free-standing support 58, a solar-electricity cell 40, a rechargeable battery 84, a light 70, the solar-electricity cell, battery and light being operatively connected, and a memorial ornament (14 and 75) illuminated by the light. The light 70 and battery 84 are in the interior of the ornament. The solar-electricity cell 40 is on the ornament and the ornament is supported by a free-standing support 58.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

standing support 45, a solar-electricity cell 65, a rechargeable battery (see column 5, lines 1-5), a light 60, the solar-electricity cell, battery and light being operatively connected, and a memorial ornament 30 illuminated by the light. ***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over (Arcadia et al or Wenzel et al). (Arcadia et al or Wenzel et al) discloses the claimed invention except for the teaching that the memorial is an angel. Tang teaches an illuminated angel. It would have been obvious to one skilled in the art at the time the invention was made to substitute an angel for the religious figures or memorials of (Arcadia et al or Wenzel et al) in order to provide an alternatively aesthetically pleasing memorial.

***Allowable Subject Matter***

Claim 1 is allowable.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
